

AI-Amoudi Real-Estate Platform Ad Display Specifications

Based on actual source code: artifacts/alamoudi/src/components/ui/AdsBanner.tsx

1. Rendering Method

Tag: <picture> + (NOT background-image)
Logic: <source media="(min-width: 1024px)" srcSet={desktopUrl} />

Desktop image loads on >= 1024px viewports.
Mobile image loads on < 1024px viewports.
No fallback between the two each slot must have its own image.

2. Premium Carousel CSS

Property	Mobile (< 1024px)	Desktop (>= 1024px)
Container aspect-ratio	800 / 204	960 / 138
overflow	hidden	hidden
img position	absolute inset-0	absolute inset-0
img width	100%	100%
img height	100%	100%
object-fit	cover	cover
object-position	center center	center center
Crop occurs?	YES (if ratio !=)	YES (if ratio !=)

3. Secondary Carousel CSS

Property	Mobile (< 1024px)	Desktop (>= 1024px)
Container aspect-ratio	NONE (height:auto)	960 / 138
overflow	hidden	hidden
img width	100%	100%
img height	auto	100%
object-fit	NONE	cover
object-position		center center
Crop occurs?	NO (full image)	YES (if ratio !=)

AI-Amoudi Ad Design Specifications (Page 2)

Crop behavior, safe zones, retina, and recommended design sizes

4. Crop Logic

object-fit: cover with object-position: center center

If image ratio != container ratio, crop happens symmetrically:

- Image is wider than container -> crop from LEFT and RIGHT equally
- Image is taller than container -> crop from TOP and BOTTOM equally
- Image has SAME ratio as container -> ZERO crop (full image visible)

5. Retina (HiDPI)

No explicit 2x/3x srcset in code. Upload at 2x resolution for sharpness on Retina.

Example: 1920x276 rendered into 960x138 container (DPR=2 screen) -> pixel-perfect.

The 1920/276 ratio = 960/138 exactly -> no crop, full image visible.

6. Recommended Design Sizes

Slot	Design at (Retina 2x)	Minimum (1x)	Ratio
Premium Desktop	1920 x 276 px	960 x 138 px	960:138 = 160:23
Premium Mobile	800 x 204 px	800 x 204 px	800:204 = 200:51
Secondary Desktop	1920 x 276 px	960 x 138 px	960:138 = 160:23
Secondary Mobile	Any width>=800	Any	Any (no crop)

7. Safe Zones (Exact Pixels)

Slot	Canvas Size	Safe X (from left)	Safe X (from right)	Safe Y (from top)	Safe Y (from bottom)	Safe W x H
Prem. Desktop	1920x276	36px	36px	36px	36px	1848 x 204 px
Prem. Mobile	800x204	24px	24px	24px	24px	752 x 156 px
Sec. Desktop	1920x276	36px	36px	36px	36px	1848 x 204 px
Sec. Mobile	800x???	24px	24px	24px	24px	752 x (full)

8. Template Guide Zones (on 960x138 canvas)

Zone	x	y	width	height	Right edge	Bottom edge
Logo (Desktop)	660	18	282	30	942	48
